Next >
Cancel

3. You'll see the following screen, but the location shown in the list box depends on where the Win98 installation CD is inserted. Select "Specify a location" and use "Browse…" button to select your window98 device driver directory. Normally, this directory is Driver\Win98 in win98 installation CD, i.e., if your CD ROM drive is D:\, and you insert Win98 installation CD into D:\, then use "Browse…" button to select the Driver\Win98 directory and you'll see "D:\Driver\Win98" shown in the list box.

Add New Hardware Wizard
Windows will search for new drivers in its driver database on your hard drive, and in any of the following selected locations. Click Next to start the search.
Floppy disk drives
CD-ROM drive
Microsoft Windows Update
Specify a location:
D:\Driver\Win98
Browse...
